**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1 and 4-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record (Fujishiro) fails to teach or fairly suggest the step of extracting by centrifugation the liquids in the matrix vessels through the outlet openings during which the liquids flow through the matrices, in combination with the remaining features and elements of the claimed invention. At the time of the invention, it would not have been obvious to a person of ordinary skill in the art to modify Fujishiro's process by incorporating the step of extracting by centrifugation because Fujishiro specifically teaches that the present invention enables extranuclear gene DNA replicated and amplified by transformants to be extracted and purified from a large number of overnight culture samples in a short period of time without using a centrifugal separator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LORE RAMILLANO whose telephone number is (571)272-7420. The examiner can normally be reached on Mon. to Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on (571) 272-1267. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
